Adding Value Where It Counts

DynAssign

Central Administration Tool for DynaCash Users (Managers & Tellers)

ADD.ON TECHNOLOGIES, INC

CONVENIENCE

DynAssign can access and manage any number of CC-5000 keypads across multiple locations

Remotely manage:
- DynaCash Tellers, Managers, & PIN #'s
- Transaction & Day Limits
- CC-5000 Admin Passwords

Users can be allowed to change PIN # locally

Scratchpad area allows changes to be reviewed before they are transferred to the CC-5000

Supports keypad cloning for adding additional DynaCash systems

SECURITY

Tiered Management Structure provides for up to 5 Top Level Admins & 25 Site Admins

Password protection at DynAssign Admin PC to safeguard User Data

Admin person effecting the user changes is recorded to Journal Tape and/or Electronic Journal

CC-5000 Top Level Admin Passwords can be controlled via DynAssign

DATA PROTECTION

Deletion of a Teller is prevented if the Teller is currently signed onto the DynaCash system or if the Teller has un-cleared totals

DynaCash User data is stored in each CC-5000 keypad.

DynAssign lets you Add, Edit, and Delete the User data in each CC-5000 from a central location, via a simple Windows-based program (DynAssign) using TCP/IP.

DynAssign Provides Easy User Management Across Multiple Sites From A Secure Central Location with Minimal Setup Time

Helping You Put All The Pieces Together To Make Currency Dispensing/Recycling Work Efficiently For You.
