CASH-IN
EZ-WEDGE™

▼
EZ-Wedge™

Linking Cash Counts to Your Cash Room Software

Cash Counting Equipment has become a standard fixture on cashier lines and in retail counting rooms. Though these machines save time, the automation is only half complete. The cash room manager still must write down the counts and then manually enter them from the machine into their cash management program. This is both time consuming and prone to errors.

The Add-On Technologies "wedge" interface product overcomes these limitations by automatically populating the cash received entry fields in the point of sale balancing screens.

The appliance is easily configured on-site for any financial application. The installer uses a simple setup utility to configure the EZ-Wedge™ small 2" square device. The bill counter plugs into the wedge and the wedge connects to any spare USB port on the back-office workstation.

Cash-In EZ-Wedge™ Provides:

- No software to install
- Easy to deploy enterprise wide
- Easy set-up with minimal IT support
- Direct input to the cash management screen

ADD-ON
TECHNOLOGIES, INC.

How It Works

Use the PRINT function on your Bill Discriminator or Value Counter to instantly send counts from the machine into the Cash-In fields of your back-office cash management application.

1. Open the Cash-In Window of your app.
2. Machine count the bills.
3. Press PRINT.

CASH IN	
CURRENCY	
\$ 100	<input type="text" value="1100"/>
\$ 50	<input type="text"/>
\$ 20	<input type="text" value="80"/>
\$10	<input type="text" value="150"/>
\$ 5	<input type="text" value="25"/>
\$ 2	<input type="text"/>
\$ 1	<input type="text" value="52"/>
COIN	<input type="text"/>
TOTAL CASH	<input type="text" value="1407"/>

The CASH-IN EZ-Wedge™ device can be installed in less than 15 minutes and supports most current Operating Systems.

Items in the Cash-in Kit

- Cash-In EZ-Wedge Device
- Mini USB cable
- Currency counter cable

Maximize Your Cash Room Manager's Productivity

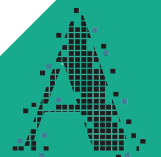

Get maximum return from your cash handling equipment when you use the CASH-IN Profiler program to upload your cash management app configuration data to any number of EZ-Wedges. Using the CASH-IN Profiler makes the actual installation of the wedges as simple as plugging them in and accomplishes scaling the solution to the size of your enterprise as straightforward as possible.
